

St. Paul's United Church of Christ is an Open and Affirming church of extravagant welcome. We have a deep commitment to advancing the spiritual development of our members and pursuing ministries involving environmental and social justice. We seek opportunities to nurture and cultivate church family relationships and enact our Christian values throughout our daily lives.

After nearly closing a decade ago, our congregation successfully revitalized itself as we created a faith community with increasing numbers of dedicated members grounded in love, inclusion, authenticity, justice and compassion. We enjoy learning, working, socializing and worshiping together as we create a safe place to question, explore and express differing perspectives.

We seek a visionary minister who desires to work in a collaborative environment to find creative solutions to our challenges and who extends radical hospitality. We want our minister to be an inspiring teacher/preacher whose faith is linked to action for social justice and environmental stewardship and possesses the administrative skills to capably manage our many programs, activities and staff.

We want to work with our ministers to strengthen our multi-generational faith formation programs, and create more opportunities and activities that will attract greater involvement of those in our surrounding community.

We look to our lead minister to lead from a deep spiritual reserve and exemplify what it means to live a Christ centered life. Our members value creative and meaningful worship experiences centered on thought provoking, heart centered sermons that are biblically based and linked to events and challenges of our daily life. We also cherish our exceptional music program.

Our lead minister will value our rich history while helping us to grow in numbers and diversity and remain a vibrant, relevant faith community that is in endless pursuit of journeying together toward deeper faith, justice, and love for all.
