## POWER AND BOUNDARY TRAINING

JUNE 9, 2022

THE COLLEGE OF SAINT BENEDICT

**Every three years, authorized ministers of the Minnesota Conference are required to take a workshop on Power and Boundaries.** This year, we are trying an experiment for those who are due for training in 2022, are new authorized ministers, or are overdue. We are offering the training prior to the Annual Meeting. We hope that those who are planning to come to AM can combine these opportunities and that those needing the training will be enticed to stay for the Annual Meeting.

**This year we are launching a new version of the Power and Boundary Training.**

### **Drawing on Our Strengths: Looking at Power and Boundaries from a Different Angle**

Ministers in the United Church of Christ draw on several critical elements in forming our ethics around power and boundaries in ministry. These are: our theology, our Ministerial Code of Ethics, and the Marks of Faithful and Effective Ministry. Each offers a grounding for how we understand our power in ministry and develop healthy boundaries to ensure good ministry and our own health. We will explore each element and work to apply their themes directly to the settings of each participant. This workshop meets the requirement for authorized ministers for power and boundary training.

Participants should bring a Bible with them to the training.

Facilitator: Anita Bradshaw
